QUESTIONS AND CLARIFICATIONS

Question: Is this project based on a PLA agreement (Project Labor Agreement)?

Clarification: No, PLA is not applicable to this project.

Question: Is the district going to file a BEAR (Billed Entity Applicant Reimbursement) form for this project so that the district pay up front and then seek reimbursement from E-Rate afterward.

Clarification: No, Contractors are required to invoice E-Rate directly for the portion that E-Rate is funding.

Question: Should proposals base pricing on first or second shift?

Clarification: All of the work is scheduled to be completed during school breaks. Bidders should evaluate the work needed to be completed when submitting their bid.

Question: What is the project timeline?

Clarification: Depending on response from E-Rate funding, the project can commence once the District receives a funding commitment. On site work is scheduled to begin from June 10, 2019 through August 13, 2019.

Question: To keep cost down, is it required to remove the existing network wiring?

Clarification: The scope of work for this project calls for the removal of the old fiber wiring. Please note that the telephone line will remain in conduit

Question: Can maps and footage docs be available in digital form?

Clarification: Maps and footage docs are posted on District's purchasing website. This will include updates to the footage docs for the District Office, Jersey Elementary, and Paddison Elementary School sites.
